ANIME STUDIO LEARN MORE TRY/BUY GET STARTED

Galleries User Stories Training Content Support About Us

Everything you need to make amazing, professional animations.

- Revolutionary Bone Rigging system takes the work out of tedious frame-by-frame animation
- Intuitive animation timeline simplifies complex animation tasks
- Physics Engine allows for super realistic movement and collisions
- Auto Trace your own artwork and then animate it
- Work with vector based art for maximum control and scalability
- Import or record audio and automatically lip-synch to characters
- Work in 2D or 3D space and import 3D objects

NEW! Anime Studio Pro 9.5 – Now Available!

NEW! Smart Bones enhancements provide more power and precision

NEW! Nested Layer Controls give more hierarchical control over rigs
